5. Meeting Minute Approval

The meeting minutes for September 16, 2025, BCTLC Meeting were approved as issued.

6. Old Business

A. Boulevard/Community Center/Parking Lot/Back Gate

(1) General discussion related to irrigation problems, one on the corner of Coconut and Bobcat Trail near the back gate is very serious, the grass has turned brown.

(2) There is also one by the Community Center and one on Royal (north end) by Bobcat Trail.

(3) The irrigation system in these areas seems to be the culprit and needs service.

(4) It was noted that the Jatropha Shrubs in the median on the north end of Bobcat Village Center Road need to be trimmed, Artis Tree indicated this will be taken care of next month.

B. Contract Matrix (Refer to Attachment 3) The highlighted section of the contract matrix was discussed; Artis Tree's

work is current with the matrix requirements except as noted and/or clarified below

(1) Artis Tree reported that they will be fertilizing the shrubs and decorative palms starting next week.

(2) Due to the sequence that the Artis Tree fertilizer crew works on its various contracts, Bobcat Trail will get their October fertilizer application in mid-November, as previously explained Artis Tree noted that Bobcat Trails will still get four applications each year per the contract.

(3) Insecticide is being applied on an ongoing basis.

(4) Mulch is scheduled for November 25.

(5) Though it is preferred to put in the new annuals before laying in the mulch the current schedule may preclude that from happening.

(6) Shrubs were trimmed last week.

(7) It was noted that we needed to establish a schedule for trimming the palms in the "Under the Trees" area.

(8) Oak trees are being trimmed as needed for required vertical clearance.

(9) The new Ginger Plants by the Community Cener are struggling due to lack of water. Irrigation problems are being resolved by the Maintenance Section.

(10) Bougainvillea's have been transplanted from the rear gate to Solitary Palm center median and to the entrance of the Community Center, unfortunately both plants died.

(11) The annuals (New Guinea Patience) will be planted November 26.

C. Bobcat Trail Aquatic and Landscape Inspection Report for September 30, 2025, by Rizzetta & Company John Fowler Landscape Specialist (Landscape sections only) (Refer to Attachment 2).

(1) As a general comment Artis Tree has most of the items on the Fowler report taken care of or in progress, the following items were explained/clarified

- # 2 Palm most likely has Frizzle Top, it has already been injected with nutrients, and the roots will also be drenched with nutrients, to help return it to health.
- #9 dead plants have been removed.
- #7 will investigate problem with Duranta Gold Mound and treat accordingly.
- #20 Will add soil to the flower beds before planting annuals.
- #21 will keep vines off the fence but not in Artis Tree contract to keep brush pushed five feet back from fence.

D. Street Monuments

(1) The objective for reconfiguring the street monuments is to achieve a more uniform look throughout the community.

(2) The initial effort will start behind the monument with the removal of the existing plants. In some cases, these plants were installed by residents whose homes are near the monuments. A letter to the residents will be provided to explain the effort that is being planned. Before the BCTLC prepares the area, the residents will be given an opportunity to remove any plants they planted.

(3) Once the vegetation is cleared from behind the monuments the soil will be prepared, and Cat Palms will be planted.

(4) The Action plan is as follows, draft of resident letter to the Committee for review at the December meeting. Then create a landscape plan for each monument, solicit proposals from Artis Tree and place contracts. It is anticipated that work will begin next April.

E. Christmas Decorations

(1) All the Ground Fault Receptacles for the front and back gate have been replaced. In addition, the receptacles have been installed in weatherproof boxes mounted on the monument walls.

(2) It was reported that all the Christmas net lights have been tested, and it was found that only 16 worked perfectly, the rest had various problems, (refer to Attachment 5).

(3) It was decided to proceed with the purchase of weatherproofing hardware for the net lights and to purchase an additional 20 sets of net lights.

(4) It was suggested that we not install the net lights on the front gate until after the mulch is down.

(5) It was decided that the Bobcat Trail Christmas decorations would go up Saturday November 15th.

(6) It was suggested that in addition to the community request for volunteers to help with the Christmas Decorations that a specific request for volunteers be sent to the CERT Team.

F. Commercial/Woodhaven/Toledo Blade/Under the Trees

(1) Generally, the areas look pretty good. (See Attachement 4) for detail review.

(2) Artis Tree agreed to respond to the specific comments but noted that on Woodhaven East the vertical clearance under the tree near the bridge may be difficult to achieve due to the thickness of the overhanging limbs.

G. Miscellaneous.

(1) The dead pines behind a resident's home on Fish Tail will be removed as soon as homeowner approval to move in heavy equipment is obtained. The trees will only be topped. This will be done at CDD expense because the situation has been deemed a safety hazard.
