Mr. Jackson informed the Board to begin by reviewing the cost share agreement with the association, so it is clear how to move forward. He stated that while the District was fortunate enough to collect through the assessment process previously, there is no guarantee going forward and clarification is needed with the association as to who is going to outlay the money in which he recommended a split and once reimbursed through an assessment, the Board and District Counsel will readdress. The Board clarified this is for moving forward as opposed to retroactive. The Board inquired if the District has been putting the electric for the deep well into Mr. Smith's tax bill.
